

In the USA, Sailcloth is measured in terms of the ounces of a 36 inch by 28.5 inch piece. In England a square yard is weighed so the same fabric will “rate” heavier there.

Sailrite stocks the following Dacron sailcloth “collections”:

- Super Cruise
 - 4 oz. in many colors
 - 4 oz. with UV protect
 - Full line of white to 10.4 oz.
 - 5.4 oz. in Cream & Tanbark
- Low Aspect
 - 4.93 oz.
 - 5.53 oz.
 - 6.53 oz.
- High Aspect
 - 5.93 oz.
 - 6.63 oz.
- Storm Orange 9.18 oz.
- Pentex Laminate
 - 3.2 oz.
 - 4.2 oz.
 - 5.4 oz.

Sailrite works with every sailcloth manufacturer in the United States so we can special order any fabric not stocked. Please call with special requests.

Performance 4 oz. Dacron Sailcloth from Challenge

Performance 4 oz. Dacron

A 36 inch wide fabric designed for use in small boat sails. The warp denier is 150 and the fill is 250 giving it a ratio of 1:1.67. This is a well balanced fabric with a medium finish (a melamine resin is used to increase stability) that will give very good service for years and years. Yet the price is quite reasonable.
